

Activities for Kindergarten Children

April 6, 2020

MONDAY	TUESDAY	WEDNESDAY	THURSDAY	FRIDAY
<p align="center"><u>Glitter Germs</u></p> <p><i>Materials:</i> glitter, magnifying glass (optional), soap & water. Do this activity close to a sink.</p> <p><i>Directions:</i></p> <ol style="list-style-type: none"> 1. Sprinkle glitter on child's hands. 2. Wash hands with just water. 3. Then wash hands with soap and water. 4. Observe which format works. Show child/children that germs are removed with soap and water. 	<p align="center"><u>Make Robots</u></p> <p><i>Materials:</i> use recyclable materials (cereal boxes, water bottles, paper towel rolls), markers, paints, loose materials (bottle caps, string, buttons, and glue).</p> <p><i>Directions:</i> Challenge your child to design and build a robot! Give it a name and all the great things it can do.</p> <p>Children can also build and create a variety of structures, types of transportation, and/or instruments.</p> 	<p align="center"><u>Can you find me? Hide and Seek with Objects</u></p> <p><i>Materials:</i> collect a few items from around the house (about 8-10), encourage your child to help collecting the items</p> <p><i>Directions:</i></p> <ol style="list-style-type: none"> 1. Show all the items to your child. 2. Take turns to hide the items (all of them or one at a time). 3. Seekers get to ask questions about the location of the hidden object. 	<p align="center"><u>Toad in a Hole</u></p> <p><i>Ingredients:</i> 2 slices white bread, 2 large eggs, 1/4 cup cheddar cheese, grated, 1 dash of salt and cooking spray.</p> <p><i>Directions:</i></p> <ol style="list-style-type: none"> 1. Cut a hole in the middle of each slice of bread with a medium sized round cookie cutter. 2. Preheat a frying pan over medium high heat. 3. Spray pan with cooking spray. When the pan gets hot, place bread in the pan making sure it is flat on the bottom of the pan. 4. Crack each egg into the hole of each slice of bread. Cook eggs. 5. Sprinkle cheese over top at the last minute of cooking. 	<p align="center"><u>Paper Planes, Speed and Aerodynamics</u></p> <p><i>Materials:</i> paper (various types if you have), if the plane is unfolding then you may need tape, glue or a stapler</p> <p>The idea is to test different styles of paper planes, predicting which one will be faster, fly straighter, how it is thrown.</p> <p><i>You may need a tape measure, to measure the distances where the paper planes land.</i></p> 

While we make every effort to create safe and engaging activities for children, please be mindful of the type and size of materials you provide your child. Supervision is still required for all the activities and children should not be left unattended during these activities.
